On my stretched arms towards It, It posed and sat on the tips of my fingers. There was around me an awsome joy, some people were surprised, some also hoped It came to them too. But It flew around again not stopping, then once more It posed on my fingers; I took It in my hands carefully and pressed It lovingly on my left cheek near my ear, hearing the quick heart-beats It had; Its heart was throbbing. — Then I found myself alone on a road, a path; walking. On the side of this path, all along, unknown little animals were swallowing each other without mercy. On my way, coming towards me, to frighten me, was a rat holding still an animal in its mouth. I did not fear, and to show the rat that I was "master", I hastened my step. It realized this and so went aside, by the path, attacking a squirrel from behind, and literally swallowed it. Then, like 7 m. in front of me, blocking my way, and stretched from one side of the path to the other, was a snake. I thanked God for letting me see it, because it was transparent,

like cellophane, so that people do not see it and step on it, so that they are bitten. I did not fear it since I made up my mind to go over it, avoiding it. Suddenly from behind me, on my right, another snake came, but it was diff-erent, because it was an "attacking" snake. It was also transparent with only a small de-sign on its back. That snake was as thin as my finger but as long as 3 m. I found myself trapped, but immediately I was levitated from the ground, by my Heavenly Father, I was levitated like 3 m. above ground, still I was afraid that this long snake might stand up and reach me, so, my Heavenly Father floa-ted me forward, passing above all these snakes and placed me on the ground near a friend. Both of us were standing at the end of the path; there was a wall, a dead-end wall. I turned my head to my right because I heard something. I saw the first snake, looking for something. I told my friend, who had not seen the snake: “don't move, stay still,” avoiding to say there was
